SUMMARY

Computer Science undergraduate with hands-on internship experience in web development and strong foundations in JavaScript, Node.js, REST APIs, databases, and LLM applications. Built full-stack applications and an LLM-based task automation agent using LangChain, FastAPI, React.js, and MongoDB. Interested in backend engineering, AI agents, API development, and production-oriented applications.

WORK EXPERIENCE

Web Development Intern

Jun 2026 – Jul 2026

National Institute of Technology (NIT), Srinagar

- Developed **ShareBite**, a full-stack food donation platform using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated **REST APIs** for user, donation, and location-based workflows.
- Implemented **JWT authentication** and role-based access control for secure user management.
- Contributed to database operations, testing, debugging, and application reliability.

IoT Intern

Jul 2025 – Aug 2025

National Institute of Technology (NIT), Srinagar

- Developed sensor-based IoT systems for real-time environmental data acquisition and monitoring.
- Worked on communication modules, system integration, testing, and performance optimization.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science

2023 – 2027

Model Institute of Engineering and Technology, Jammu

PROJECTS

Self-Tasking AI Agent

Python — FastAPI — React.js — LangChain — LLMs

- Built an **LLM-based task automation agent** using LangChain and FastAPI to process multi-step tasks.
- Developed a React dashboard with conversational memory and real-time task tracking.
- Created backend APIs to connect the AI agent with the web interface and manage task execution.

ShareBite – Food Donation Management Platform

Node.js — Express.js — MongoDB — React.js — JWT

- Built a full-stack platform connecting surplus food donors with nearby NGOs through location-based matching.
- Developed REST APIs, authentication, role-based access control, and database operations.

Netflix-Inspired Personal Portfolio

HTML — CSS — JavaScript — React.js

- Developed a responsive personal portfolio using React.js, JavaScript, HTML, and CSS.
- Built reusable UI components and interactive sections to showcase projects, skills, and experience.

TECHNICAL SKILLS

Languages: JavaScript, Python, C, HTML, CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Frontend: React.js

Databases: MongoDB, SQL Basics

AI: LLMs, LangChain, AI Agents

Tools: Git, GitHub, VS Code, Postman, ServiceNow

Core: Data Structures, OOP, Authentication, Problem Solving

CERTIFICATIONS

- ServiceNow Certified Implementation Specialist – Data Foundations (CIS-DF)
- ServiceNow CMDB & Common Service Data Model (CSDM)
- ServiceNow Welcome Micro-Certification
- IBM Python for Data Science, AI & Development
- Google Cloud Introduction to AI & Machine Learning
